**Early Spring:**
- Apply GreenUp plus Crabgrass Preventer and MAG-I-CAL on the same day.

**Late Spring:**
- Apply Crabgrass Preventer and Feed.

**Summer:**
- Apply Love Your Soil to feed the soil.
- Apply Sulfur & Iron to feed the soil.

**Fall:**
- Apply Winter Survival to feed the lawn.

**Usage Tips:**
- For rectangular lawns, apply a header strip around each end for a turning area, then apply back and forth.
- For irregular-shaped lawns, apply a header strip around the entire lawn for a turning area, then apply back and forth.

**Toxicity Information:**

- Do not apply this product to lawns that are not prepared for irrigation or that are not capable of absorbing water efficiently.
- Do not apply this product to lawns that are not capable of absorbing water efficiently.
- Do not apply this product to lawns that are not prepared for irrigation or that are not capable of absorbing water efficiently.

**Application Notes:**

- Apply 1 cup per 5 square feet of garden area when growing and preparing for planting. For established plants, apply 1 cup on each plant base and water it. For established lawns, apply 1 cup on each plant base and water it. For established lawns, apply 1 cup on each plant base and water it.

**For Trees, Roses & Shrubs:**

- Apply 1 cup per 10 square feet of garden area when preparing and planting. For established plants, apply 1 cup on each plant base and water it.

**For Hanging Baskets:**

- Apply 1 cup per hanging basket and water it.

**Feeding Your Soil**

- Love Your Soil should be applied between each lawn or garden application.
- Love Your Soil will help loosen soil by improving root penetration, promoting growth and root mass, while helping release trapped nutrients in the soil.
- Love Your Soil can be applied anytime of the year. We recommend using Love Your Soil in the spring and fall.
- Love Your Soil should be applied with a rotary spreader.
- Love Your Soil should be applied at the rate of 0.9 pounds per 250 square feet.

**New Lawns or Overseeding Lawns or Sodding:**

- When planting new lawns, Love Your Soil should be applied with Jonathan Green MAG-I-CAL and Green-Up Lawn Food for Seeding & Sodding.
- These products can be applied in any order, on the same day.
- Apply one bag of Love Your Soil per 7,500 square feet using the “Spreader Settings” chart below.
- For best results, water the lawn vigorously prior to applying Love Your Soil. Watering is not necessary, but if possible, water in other applications for 15-30 minutes. For very hard soil, repeat applications twice a year may be necessary.

**Iron Humate and Molasses**

- Derived from: Calcium Sulfate Dihydrate, Calcium Carbonate, Iron (Fe) ................................................................ 1.0%
- 3.8% Combined Sulfur (S)
- Sulfur (S) ................................................................ 3.8%
- Calcium (Ca) ........................................................ 21.0%
