

Black Beauty™ Original

Supreme Grass Seed Blend

This is the Black Beauty product that started it all! Black Beauty Original has been a long-time favorite blend of turf professionals across the United States because it contains Jonathan Green's most drought tolerant varieties. With roots that can grow up to 4 feet deep and a waxy leaf coating (like the skin on an apple), Black Beauty Original preserves moisture and limits evaporation. It also withstands heavy traffic, naturally resists insects and diseases, and thrives in sunny and shady areas.

Black Beauty Original is sure to provide you with a healthy, dark-green lawn for years to come. Seed should germinate in 10 - 14 days.

- Produces a darker green turf naturally
- Improved disease resistance and drought tolerance
- Grows well in clay or sandy soils and in full sun or partial shade
- Used by many leading sod growers across the USA
- Will improve any lawn it is overseeded into
- Contains naturally insect resistant grass
