

WINTER SURVIVAL

Fall Lawn Food

10-0-20

Feed your lawn this fall for a healthier, greener lawn next spring.

Winter Survival has a fall and winter feeding formula that keeps your lawn greener later into the year, with slow-release Nitrogen. It provides a well balanced formula, ideal for winter lawn protection; 3% iron helps keep the lawn a deep-green color.

Winter Survival is a “true” fall/winter formula which promotes root growth and stores nutrients for spring, it is ideal to use with a fall seeding. It helps repair summer lawn damage and protect the lawn from winter stress.

5,000 sq. ft. #12400

15,000 sq. ft. #12414

Guaranteed Analysis	
Total Nitrogen (N).....	10.00%
10% Urea Nitrogen*	Derived from: Urea, Polymer Coated Urea, Muriate of Potash, Ferrous Sulfate.
Soluble Potash (K ₂ O).....	20.00%
Iron (Fe).....	3.00%
	0.03% water soluble iron
*2.5% controlled release urea nitrogen from polymer coated urea.	

- High potash formula helps encourage fall rooting and winter disease prevention
- Provides a gentle fall feeding with just the right amount of nitrogen
- Promotes early spring green-up
- Feeds for up to 2 months
